Beyond Meat President and CEO Ethan Brown commented, "Our results for the fourth quarter of 2025 reflect ongoing headwinds in the plant-based meat category as well as the financial impact of several restructuring charges that, while costly, we believe will support the Company's path to sustainable operations."

Brown continued, "We enter 2026 with reduced leverage and extended debt maturity, and having added liquidity to our balance sheet. We intend to build on these improvements through the continued pursuit of top-line stabilization and margin expansion. Furthermore, we are strategically repositioning our brand to Beyond The Plant Protein Company™, allowing us to enter into adjacent categories where we believe our brand, technology and commitment to clean plant-based nutrition can deliver significant value to consumers."

Fourth Quarter 2025

Net revenues decreased 19.7% to \$61.6 million in the fourth quarter of 2025, compared to \$76.7 million in the year-ago period. The decrease in net revenues was primarily driven by a 22.4% decrease in volume of products sold, partially offset by a 3.5% increase in net revenue per pound. The decrease in volume of products sold was primarily driven by weak category demand and lower sales of chicken and burger products to Quick Service Restaurant (“QSR”) customers in the U.S. and international foodservice channels. The increase in net revenue per pound was primarily driven by changes in product sales mix, favorable changes in foreign currency exchange rates and price increases of certain of our products, partially offset by higher trade discounts.

U.S. retail channel net revenues decreased 6.5% to \$31.7 million in the fourth quarter of 2025, compared to \$33.9 million in the year-ago period. The decrease in net revenues was primarily driven by a 6.5% decrease in volume of products sold; net revenue per pound was approximately flat. The decrease in volume of products sold was primarily driven by weak category demand and reduced points of distribution for certain of our products. Net revenue per pound was approximately flat as changes in product sales mix were offset by higher trade discounts and price decreases of certain of our products.

U.S. foodservice channel net revenues decreased 23.7% to \$8.0 million in the fourth quarter of 2025, compared to \$10.5 million in the year-ago period. The decrease in net revenues was primarily driven by a 25.1% decrease in volume of products sold, partially offset by a 1.9% increase in net revenue per pound. The decrease in volume of products sold was primarily driven by the lapping of sales of chicken products to a QSR customer in the year-ago period and weak category demand. The increase in net revenue per pound was primarily driven by changes in product sales mix, partially offset by higher trade discounts.

International retail channel net revenues decreased 32.5% to \$8.8 million in the fourth quarter of 2025, compared to \$13.1 million in the year-ago period. The decrease in net revenues was primarily driven by a 33.5% decrease in volume of products sold, partially offset by a 1.5% increase in net revenue per pound. The decrease in volume of products sold was primarily driven by reduced sales of burger

products in the EU and certain retail channels in Canada. The increase in net revenue per pound was primarily driven by price increases of certain of our products, changes in product sales mix and favorable changes in foreign currency exchange rates, partially offset by higher trade discounts.

International foodservice channel net revenues decreased 31.8% to \$13.1 million in the fourth quarter of 2025, compared to \$19.3 million in the year-ago period. The decrease in net revenues was primarily driven by a 34.1% decrease in volume of products sold, partially offset by a 3.4% increase in net revenue per pound. The decrease in volume of products sold was primarily due to reduced sales of the Company's chicken and burger products to certain QSR customers. The increase in net revenue per pound was primarily driven by favorable changes in foreign currency exchange rates and changes in product sales mix, partially offset by higher trade discounts.

Gross profit in the fourth quarter of 2025 was \$1.4 million, or gross margin of 2.3%, compared to gross profit of \$10.0 million, or gross margin of 13.1%, in the year-ago period. Gross profit and gross margin in the fourth quarter of 2025 included \$2.4 million in non-cash charges arising from incremental provision for excess and obsolete inventory as a result of SKU rationalization and the decision to discontinue certain product lines and \$1.5 million in expenses related to the cessation of the Company's operational activities in China. Additionally, gross profit and gross margin in the fourth quarter of 2025 were negatively impacted by increased cost of goods sold per pound, partially offset by increased net revenue per pound. The increase in cost of goods sold per pound primarily reflected higher materials costs and higher inventory provision, partially offset by lower manufacturing expenses, including depreciation, and lower logistics costs.

Operating expenses were \$135.1 million in the fourth quarter of 2025, compared to \$47.8 million in the year-ago period. Operating expenses in the fourth quarter of 2025 included \$49.0 million in non-cash charges related to the loss from write-down of assets held for sale relating to certain property, plant and equipment that was no longer deemed core to our strategic objectives or required for our future operations. There were no such charges in the year-ago period. Operating expenses in the fourth quarter of 2025 also included a \$38.9 million non-cash litigation-related accrual, \$13.3 million in incremental share-based compensation expense related to the Company's convertible debt exchange, \$0.8 million in certain non-routine SG&A expenses, \$0.4 million in costs related to the partial lease

termination of a portion of the Company's Campus Headquarters, and \$0.3 million in incremental legal and other fees and expenses associated with arbitration proceedings related to a contractual dispute with a former co-manufacturer. Excluding these items, the decrease in operating expenses compared to the fourth quarter of 2024 was primarily driven by decreased marketing expenses.

Loss from operations in the fourth quarter of 2025 was \$133.6 million, compared to \$37.8 million in the year-ago period. The increase in loss from operations was driven by the increase in operating expenses and the reduction in gross profit.

The following table summarizes certain charges recorded in the Company's consolidated statement of operations for the fourth quarter of 2025 (unaudited):

(in thousands)	<u>Three Months</u> <u>Ended</u> <u>December 31,</u> <u>2025</u>
Charges recorded in cost of goods sold:	
Incremental obsolescence provision related to SKU rationalization initiative	\$ 2,389
Expenses related to cessation of operational activities in China	<u>\$ 1,514</u>
Total charges recorded in cost of goods sold	<u>\$ 3,903</u>
Charges recorded in operating expenses:	
Loss on write-down of assets held for sale	\$ 48,987
Litigation-related accrual	\$ 38,900
Incremental non-cash share-based compensation expense	\$ 13,267
Certain non-routine SG&A expenses	\$ 838

Incremental legal expenses related to contractual dispute with former co-manufacturer	\$ 296
Expenses related to cessation of operational activities in China	<u>\$ 13</u>
Total charges recorded in operating expenses	<u>\$ 102,688</u>
Total	<u><u>\$ 106,591</u></u>

Total other income, net, was \$542.6 million in the fourth quarter of 2025, compared to total other expense, net, of \$7.0 million in the year-ago period. The increase in total other income, net, was primarily due to a \$548.7 million gain on debt restructuring, a \$10.3 million gain from the remeasurement of warrant liability and \$0.8 million in net realized and unrealized foreign currency transaction gains due to favorable changes in foreign currency exchange rates, partially offset by a loss from remeasurement of derivative liability and an increase in interest expense related to leases and the Company's delayed draw term loan facility.

Net income was \$409.0 million in the fourth quarter of 2025, compared to net loss of \$44.9 million in the year-ago period. Net income per share available to common stockholders-basic was \$0.84, compared to net loss per share available to common stockholders-basic of \$(0.65) in the year-ago period. Net loss per share available to common stockholders-diluted was \$(0.28), compared to net loss per share available to common stockholders-diluted of \$(0.65) in the year-ago period. The increase in net income in the fourth quarter of 2025 was primarily driven by the increase in Total other income, net, partially offset by the increase in loss from operations.

Adjusted EBITDA was a loss of \$69.9 million, or -113.5% of net revenues, in the fourth quarter of 2025, compared to an Adjusted EBITDA loss of \$26.0 million, or -33.9% of net revenues, in the year-ago period.

Balance Sheet and Cash Flow Highlights

The Company's cash and cash equivalents balance, including restricted cash, was \$217.5 million and total outstanding carrying value of debt, net of debt discount, was \$415.7 million as of December 31, 2025, which included the total undiscounted future cash flows of the new 2030 Notes recorded at the completion of the Company's convertible debt exchange. Net cash used in operating activities was \$144.9 million in the year ended December 31, 2025, compared to \$98.8 million in the year-ago period. Capital expenditures totaled \$12.3 million in the year ended December 31, 2025, compared to \$11.0 million in the year-ago period. Net cash used in investing activities was \$10.3 million in the year ended December 31, 2025, compared to \$6.2 million in the year-ago period. Net cash provided by financing activities was \$223.4 million in the year ended December 31, 2025, compared to net cash provided by financing activities of \$45.8 million in the year-ago period. Net cash provided by financing activities in the year ended December 31, 2025 included draws from the Company's Delayed Draw Term Loan Facility with Unprocessed Foods, LLC, in the aggregate amount of \$100.0 million, partially offset by related debt issuance costs, and aggregate net proceeds of approximately \$148.7 million from sales of common stock under the Company's "at-the-market" offering program ("ATM Program").

Correction of Previously Issued Interim Condensed Consolidated Financial Statements

During its fourth quarter and full year 2025 financial close procedures, the Company determined that, in addition to a previously identified material weakness related to the accounting for non-routine and

complex transactions, an additional material weakness in internal control over financial reporting existed as of December 31, 2025, related to controls associated with the accounting for its inventory provision, including amounts recorded for the provision of excess and obsolete inventory. In assessing the impact of the identified material weaknesses on the Company's financial statements, the Company identified certain errors related to its previously issued interim financial statements for 2025, which primarily caused cost of goods sold and selling, general and administrative expenses to be understated in each of the first three quarters of 2025, and loss from impairment to be overstated in the third quarter of 2025.

The Company has determined that the errors identified were immaterial to the previously issued interim condensed consolidated financial statements for the first three quarters of 2025 and that the errors will be corrected prospectively when the Company files its quarterly reports in fiscal 2026. For a full discussion of these matters, investors can refer to Item 9A—*Controls and Procedures*, and Item 9B—*Other Information*, in the Company's 2025 Annual Report on Form 10-K.

A summary of the revisions to the impacted financial statement line items in the Company's previously issued interim condensed consolidated financial Statements for 2025 is shown on the attached schedule at the end of this release.

Annual Report on Form 10-K

The Company was unable to file its Annual Report on Form 10-K for the fiscal year ended December 31, 2025 within the prescribed deadline as it required additional time to complete its fourth quarter and year-end financial close procedures. As a result, the Company will be considered an untimely filer and will no longer be eligible to use Form S-3 registration statements until it regains timely filer status by filing in a timely manner all reports required to be filed under the Securities Exchange Act of 1934, as amended, for a period of twelve calendar months.

2026 Outlook

The Company continues to experience an elevated level of uncertainty within its operating environment, which has, and management believes will continue to have, unforeseen impacts on the Company's actual realized results. In light of this uncertainty, the Company is limiting its outlook to the following:

- In the first quarter of 2026, net revenues are expected to be approximately \$57 million to \$59 million.

Forward-Looking Statements

Certain statements in this release constitute "forward-looking statements" within the meaning of the federal securities laws, including statements related to the Company's expectations with respect to its first quarter 2026 outlook.

Forward-looking statements are based on management's current opinions, expectations, beliefs, plans, objectives, assumptions and projections regarding financial performance, prospects, future events and future results, including ongoing uncertainty related to macroeconomic issues, including high inflation and interest rates, prolonged, weakening demand in the plant-based meat category, ongoing concerns about the likelihood of a recession and increased competition, and the Company's ability to regain timely filer status, among other matters, and involve known and unknown risks that are difficult to

predict. In some cases, you can identify forward-looking statements by the use of words such as “may,” “could,” “expect,” “intend,” “plan,” “seek,” “anticipate,” “believe,” “estimate,” “project,” “predict,” “outlook,” “potential,” “continue,” “likely,” “will,” “would” and variations of these terms and similar expressions, or the negative of these terms or similar expressions. These forward-looking statements are only predictions, not historical fact, and involve certain risks and uncertainties, as well as assumptions. Forward-looking statements should not be read as a guarantee of future performance or results, and will not necessarily be accurate indications of the times at, or by which or whether, such performance or results will be achieved. Actual results, levels of activity, performance, achievements and events could differ materially from those stated, anticipated or implied by such forward-looking statements. While Beyond Meat believes that its assumptions are reasonable, it is very difficult to predict the impact of known factors and, of course, it is impossible to anticipate all factors that could affect actual results. There are many risks and uncertainties that could cause actual results to differ materially from forward-looking statements made herein including, but not limited to: a further decrease in demand, and the underlying factors negatively impacting demand, in the plant-based meat category, including the exacerbation of weakness in the category by the macroeconomic trends discussed in this release; the success of our marketing initiatives and the ability to maintain and grow our brand awareness, maintain, protect and enhance our brand, or rebrand altogether, attract and retain new customers and maintain and grow our market share, particularly while we are seeking to reduce our operating expenses; changes in the retail landscape, including our ability to maintain and expand our distribution footprint, the timing, success and level of trade and promotion discounts, our ability to maintain and grow market share and increase household penetration, repeat purchases, buying rates (amount spent per buyer) and purchase frequency, our ability to maintain and increase sales velocity of our products, and the timing and success of our efforts to expand distribution channels, such as our direct-to-consumer (DTC) channel, and planned new products or recently launched products; our ability to successfully innovate and commercialize new plant-based protein products, including in adjacent categories outside of our core, meat analogue offerings, and consumer acceptance of such new products; the sufficiency of our cash and cash equivalents to meet our liquidity needs, including estimates of our expenses, future revenues, capital expenditures and capital requirements; our ability to obtain additional equity and/or debt financing, the terms of any such financing, and our ability to continue to bolster our balance sheet; risks associated with our indebtedness, leverage and liquidity relating to our significant debt, including our ability to repay or refinance and otherwise satisfy our obligations under each of the Loan and Security Agreement (as defined below), our 0% Convertible Senior Notes due 2027 (the “2027 Notes”)

that remain outstanding and our 7.00% Convertible Senior Secured Second Lien PIK Toggle Notes due 2030 (the “2030 Notes” and, together with the 2027 Notes, the “Notes”) issued in the exchange offer related to the 2027 Notes, which was completed on October 30, 2025 (the “Exchange Offer”), and our ability to comply with the covenants (or our inability to obtain waivers related to any breach of such covenants) in the Loan and Security Agreement and respective indentures governing the Notes; our ability to raise the funds necessary to repurchase the Notes for cash, under certain circumstances, or to pay any cash amounts due under the Notes; the impact of the Exchange Offer on future availability of our pre-change net operating loss carryforwards and other tax attributes to offset our future net taxable income; the annual limitations on utilization of any remaining operating loss and tax credit carryforwards due to ownership change limitations provided by the Internal Revenue Code and similar state tax provisions, and the outcomes of any related audits or examinations; the significant dilution to our stockholders that resulted from the Exchange Offer and the additional dilution that will result if we exchange any portion of our outstanding Notes for equity, issue shares of our common stock with respect to the 2030 Notes (including any 2030 Notes issued as payment-in-kind interest on such 2030 Notes), including in connection with conversions of the 2030 Notes at our option or at the option of holders, upon equitization of the 2030 Notes, as payment of accrued interest in the form of common stock or in payment of certain make-whole payments on the 2030 Notes, in each case pursuant to the terms of the 2030 Notes, or if the lenders under the Loan and Security Agreement exercise their related warrants to purchase shares of our common stock (the “Warrants”), as further described herein; provisions in the respective indentures governing the Notes and in the Loan and Security Agreement delaying or preventing an otherwise beneficial takeover of us; and any adverse impact on our reported financial condition and results from the accounting methods for the Notes; our ability to remediate the existing material weaknesses in our internal control over financial reporting and maintain effective internal control over financial reporting and disclosure controls and procedures; risks and uncertainties related to failures to maintain effective internal control over financial reporting, which have resulted, and may in the future result, in the identification of errors in our previously issued financial statements, such as those disclosed and corrected in this release, and a potential need to restate financial statements in such instances; market price fluctuations in the price of our common stock, whether due to dilution, adverse business or financial performance or the perception of such adverse performance, failure to meet the Nasdaq continued listing requirement for minimum bid price or other Nasdaq listing requirements and the potential delisting of our common stock, or market and trading dynamics unrelated to our underlying business, operating and financial performance or prospects or macro or

industry fundamentals which may not coincide in timing with the disclosure of news or developments by or affecting us, could cause the market price of our common stock to fluctuate dramatically or decline rapidly, regardless of any developments in our business or financial results; risks and uncertainties related to our loss of timely filer status and our eligibility to use Form S-3 registration statements, the impact of general economic conditions in the U.S. and international markets on us, our customers, our suppliers, our vendors and consumers, including concerns related to inflation, geopolitical and economic uncertainty and instability, a potential recession, the shutdown of the federal government including regulatory agencies, tariffs and trade wars, and the effects of those conditions on consumer spending; the impact of adverse and uncertain political conditions in the U.S. and international markets, such as greater restrictions on free trade through significant increases in tariffs on raw materials, ingredients, finished goods and other products and supplies imported into the United States and increased uncertainty surrounding international trade policy and regulations, trade wars, including through the implementation of retaliatory tariffs or related counter-measures, and the negative effects of anti-American sentiment, the escalating armed conflict in the Middle East, as well as the impact of inflation and high interest rates on consumer behavior, including higher food, grocery, raw materials, transportation, energy, labor and fuel costs; risks and uncertainties related to identifying and executing our current and future cost-reduction initiatives, cost structure improvements, workforce reductions, executive leadership changes and other organizational changes, including realignment of reporting structures, and the timing and success of continuing to reduce operating expenses and achieving our profitability, cash flow and financial performance objectives; our ability to streamline operations and improve cost efficiencies, which could result in the contraction of our business and the continued implementation of significant cost cutting measures such as further downsizing, consolidating or exiting certain operations, including product lines, domestically and/or abroad; the timing and success of narrowing our commercial focus to certain anticipated growth opportunities; accelerating activities that prioritize gross margin expansion and cash generation, including as part of our review of our global operations initiated in 2023 (“Global Operations Review”); changes to our pricing architecture; cash-accretive inventory reduction initiatives; and further cost-reduction initiatives; our ability to successfully execute our Global Operations Review and any resulting strategic plans, including the exit or discontinuation of select product lines; the impact of non-cash charges such as provision for excess and obsolete inventory and potential additional impairment charges, write-offs, disposals and accelerated depreciation of fixed assets, and losses on sale and write-down of fixed assets and assets held for sale; further optimization of our manufacturing capacity and real estate footprint; workforce

reductions; and the cessation of our operational activities in China in 2025; our ability to successfully execute the Transformation Office initiatives, including, among other things, positioning the business for a more fundamental resizing of operating expenses, driving margin recovery, including through targeted investments in our facilities and supply chain cost reductions, reducing inventory and associated carrying costs through SKU rationalization and the discontinuation of certain product lines, and preserving cash and monetizing non-strategic or idle assets; our ability to meet our obligations under leases for our corporate offices, manufacturing facilities and warehouses, including matters relating to our El Segundo Campus and Innovation Center (“Campus Headquarters”) including, without limitation, the ability to meet our obligations under our Campus Headquarters lease, as amended from time to time (the “Campus Lease”), the impact of workforce reductions or other cost-reduction initiatives on our space demands, the impact of the surrender of a portion of the existing premises, the impact of the sublease of a portion of the existing premises, other efforts to develop, repurpose or consolidate our use of our leased premises, and the timing and success of surrendering, subleasing, assigning or otherwise transferring, developing or repurposing the remaining used or excess leased space or negotiating additional partial lease terminations and/or subleases or other dispositions of our Campus Headquarters on terms advantageous to us or at all, including any potential additional impairment charges that may result; reduced consumer confidence and changes in consumer spending, including spending to purchase our products, and negative trends in consumer purchasing patterns due to levels of consumers’ disposable income, credit availability and debt levels, and economic conditions, including due to potential recessionary and inflationary pressures, and geopolitical instability and wars; our inability to properly manage and ultimately sell our inventory in a timely manner, which has in the past and could in the future require us to sell our products through liquidation channels at lower prices, write-down or write-off excess or obsolete inventory, or increase inventory provision; ongoing and persistent declines in demand in the plant-based meat category and for our products, or strategic decisions that result in changes to our product portfolio, including the potential discontinuation of certain product lines through initiatives stemming from our transformation office and program or other strategic measures, which may require us to write-down or write-off excess or obsolete inventories; impairment charges, including due to any future changes in estimates, judgments or assumptions, failure to achieve forecasted operating results due to weakness in the economic environment, demand for our products or other factors, changes in market conditions and declines in our publicly quoted stock price and market capitalization, failure to sublease, assign or otherwise transfer any excess space or negotiate additional partial lease terminations and/or subleases or other dispositions of our Campus Headquarters or other

facilities on terms advantageous to us or at all, and the cessation of our operational activities in China in 2025; our ability to accurately predict consumer taste preferences, trends and demand and successfully innovate, introduce and commercialize new products and improve existing products, including in new geographic markets; the effects of competitive activity from our market competitors, including through consolidation in the plant-based food industry or vertical consolidation of diversified food businesses with existing plant-based food businesses, and new market entrants, which may include companies with substantially greater financial resources than us; our ability to protect our brand against misinformation about our products and the plant-based meat category, real or perceived quality or health issues with our products, marketing campaigns aimed at generating negative publicity regarding our products and the plant-based meat category, including regarding the nutritional value of our products, and other issues that could adversely affect our brand and reputation; disruption to, and the impact of uncertainty in, our domestic and international supply chain, including labor shortages and disruption, shipping delays and disruption, the impact of tariffs on raw materials, ingredients, finished goods and other products and supplies imported into the U.S., and the impact of cyber incidents at suppliers and vendors; the impact of uncertainty as a result of doing business internationally, including as a result of the cessation of our operational activities in China in 2025; the volatility of or inability to access the capital markets, including due to macroeconomic factors, geopolitical tensions, trade policy uncertainty (including tariffs and retaliatory trade measures), or the outbreak or escalation of hostilities or war—for example, the ongoing war between Russia and Ukraine and the escalating armed conflict in the Middle East involving the United States, Israel and Iran, and their impacts on the surrounding areas and global economy; changes in the foodservice landscape, including the timing, success and level of marketing and other financial incentives to assist in the promotion of our products, our ability to maintain and grow market share and attract and retain new foodservice customers or retain existing foodservice customers, and our ability to introduce and sustain offering of our products on menus; the timing and success of distribution expansion and new product introductions, including the success of our DTC channel, and the timing and success of planned new products or recently launched products, in increasing revenues and market share; our ability to differentiate and continuously create innovative products, respond to competitive innovation and achieve speed-to-market, including the timing and success of planned new products or recently launched products; the timing and success of strategic Quick Service Restaurant (“QSR”) partnership launches and limited time offerings resulting in permanent menu items and our ability to attract and retain QSR and other strategic customers; the outcomes of, and costs related to, legal or administrative proceedings, including any settlements,

appeals from initial decisions or other developments in such proceedings, or new legal or administrative proceedings filed against us; foreign currency exchange rate fluctuations; the effectiveness of our business systems and processes; our estimates of the size of our market opportunities and ability to accurately forecast market conditions; our ability to effectively optimize our manufacturing and production capacity, and real estate footprint, including consolidating manufacturing facilities and production lines, exiting co-manufacturing arrangements or entering into new arrangements under terms that are ultimately beneficial to us and effectively managing capacity for specific products with shifts in demand; risks associated with underutilization of capacity which have in the past and could in the future give rise to increased cost of goods sold per pound, underutilization fees, termination fees and other costs to exit certain supply chain arrangements and product lines, and/or the write-down or write-off of certain equipment and other fixed assets and impairment charges, all of which could negatively impact gross margin, driving less leverage on fixed costs and delaying the speed at which cost savings initiatives positively impact our financial results; our ability to accurately forecast our future results of operations and financial goals or targets, including as a result of fluctuations in demand for our products and in the plant-based meat category generally, increased competition, and the impact of broader macroeconomic conditions and market uncertainty; our ability to accurately forecast demand for our products and manage our inventory, including the impact of customer orders ahead of holidays and the timing of customer promotions, shelf reset activities, and price increases as a result of tariffs or otherwise; customer and distributor changes and buying patterns, such as reductions in targeted inventory levels; and supply chain and labor disruptions, including due to the impact of cyber incidents at suppliers and vendors; our operational effectiveness and ability to fulfill orders in full and on time; variations in product selling prices and costs, the timing and success of changes to our pricing architecture, our ability to pass on price increases in full or at all, including due to the impact of tariffs and macroeconomic conditions, and the mix of products sold; our ability to successfully enter new geographic markets, manage our international business and comply with any applicable laws and regulations, including risks associated with doing business in foreign countries, and our ability to comply with the U.S. Foreign Corrupt Practices Act or other anti-corruption laws; the effects of global outbreaks of pandemics, epidemics or other public health crises, or fear of such crises; our ability to attract, maintain and effectively expand our relationships with key strategic foodservice partners; our ability to attract and retain our suppliers, distributors, vendors, co-manufacturers and customers; our ability to procure sufficient high-quality raw materials at competitive prices to manufacture our products; the availability of pea and other proteins and avocado oil that meet our standards; our ability to diversify

the protein sources and avocado oil sources used for our products; our ability to successfully execute our strategic initiatives; the volatility associated with ingredient, packaging, transportation and other input costs, including due to the impact of tariffs and rising energy and fuel costs; our ability to keep pace with technological changes impacting the development of our products and implementation of our business needs; significant disruption in, or breach in security of our or our suppliers' or vendors' information technology systems, including any inability to detect or timely report any cybersecurity incidents, and resultant interruptions in service and any related impact on our reputation, including data privacy, and any potential impact on our supply chain, including on customer demand, order fulfillment and lost sales, and the resulting timing and/or amount of net revenues recognized; the ability of our transportation providers to ship and deliver our products in a timely and cost-effective manner; senior management and key personnel changes, the attraction, training and retention of qualified employees and key personnel, and our ability to maintain our company culture; risks related to use of a professional employer organization to administer human resources, payroll and employee benefits functions for certain of our international employees, and use of certain third party service providers for the performance of several business operations including payroll, human capital, supply chain optimization, financial reporting and accounting, and certain other management services; the impact of potential workplace hazards; the effects of natural or man-made catastrophic or severe weather events, including events brought on by climate change, particularly involving our or any of our co-manufacturers' manufacturing facilities, our suppliers' facilities or any other vital aspects of our supply chain; accounting estimates based on judgment and assumptions that may differ from actual results; changes in laws and government regulation, and their enforcement, affecting our business, including the U.S. Food and Drug Administration ("FDA") and the U.S. Federal Trade Commission governmental regulation, and state, local and foreign regulation; new or pending legislation, or changes in laws, regulations or policies of governmental agencies or regulators, both in the U.S. and abroad, affecting plant-based meat, the labeling, packaging or naming of our products, including requirements regarding nutrient content claims, or our brand name or logo; the failure of acquisitions and other investments to be efficiently integrated and produce the results we anticipate; risks inherent in investment in real estate; adverse developments affecting the financial services industry, including the potential failure of financial institutions with which we have deposits or other business relationships; the financial condition of, and our relationships with our suppliers, vendors, co-manufacturers, distributors, retailers and foodservice customers, and their future decisions regarding their relationships with us; our ability and the ability of our suppliers, vendors and co-manufacturers to comply with food safety, environmental or

other laws or regulations and the impact of any non-compliance on our operations, brand reputation and ability to fulfill orders in full and on time; seasonality, including increased levels of grilling activity and higher levels of purchasing by customers ahead of holidays, customer shelf reset activity and the timing of product restocking by our retail customers; the impact of increased scrutiny from a variety of stakeholders, institutional investors and governmental bodies on environmental, social and governance (“ESG”) practices; our suppliers’ and our co-manufacturers’ ability to protect our proprietary technology, intellectual property and trade secrets adequately; the impact of changes in tax laws; and the risks discussed under the heading “Risk Factors” in the Company’s Annual Report on Form 10-K for the year ended December 31, 2025 filed with the Securities and Exchange Commission (the “SEC”) on April 9, 2026, as well as other factors described from time to time in the Company’s filings with the SEC. All forward-looking statements attributable to us or persons acting on our behalf are expressly qualified in their entirety by the cautionary statements set forth above. Such forward-looking statements are made only as of the date of this release. Beyond Meat undertakes no obligation to publicly update or revise any forward looking statement because of new information, future events, changes in assumptions or otherwise, except to the extent required by applicable laws. If we do update one or more forward-looking statements, no inference should be made that we will make additional updates with respect to those or other forward-looking statements.

Non-GAAP Financial Measures

Beyond Meat uses the non-GAAP financial measures set forth below in assessing its operating performance and in its financial communications. Management believes these non-GAAP financial measures provide useful additional information to investors about current trends in our operations and are useful for period-over-period comparisons of operations. In addition, management uses these non-GAAP financial measures to assess operating performance and for business planning purposes. Management also believes these measures are widely used by investors, securities analysts, rating agencies and other parties in evaluating companies in our industry as a measure of our operational performance. These non-GAAP financial measures should not be considered in isolation or as substitutes for the comparable GAAP measures. In addition, these non-GAAP financial measures may not be computed in the same manner as similarly titled measures used by other companies.

“Adjusted loss from operations” is defined as loss from operations adjusted to exclude, when applicable, costs attributable to special items, which are those items deemed not to be reflective of the Company’s ongoing normal business activities.

“Adjusted operating margin” is defined as Adjusted loss from operations divided by net revenues.

We consider Adjusted loss from operations and Adjusted operating margin to be useful indicators of operating performance because excluding special items allows for period-over-period comparisons of our ongoing operations.

“Adjusted EBITDA” is defined as net income (loss) adjusted to exclude, when applicable, income tax (benefit) expense, interest expense, depreciation and amortization expense, restructuring expenses, share-based compensation expense, non-cash charges related to the cessation of our operational activities in China, costs related to a partial lease termination of a portion of the Campus Headquarters, non-cash loss from impairment of long-lived assets, litigation-related accruals, accrued litigation settlement costs, remeasurement of warrant liability, remeasurement of derivative liability, gain on debt restructuring, and Other, net, including interest income and foreign currency transaction gains and losses.

“Adjusted EBITDA as a % of net revenues” is defined as Adjusted EBITDA divided by net revenues.

There are a number of limitations related to the use of Adjusted EBITDA and Adjusted EBITDA as a % of net revenues rather than their most directly comparable GAAP measures. Some of these limitations are:

- Adjusted EBITDA excludes depreciation and amortization expense and, although these are non-cash expenses, the assets being depreciated may have to be replaced in the future increasing our cash requirements;
- Adjusted EBITDA does not reflect interest expense, or the cash required to service our debt, which reduces cash available to us;
- Adjusted EBITDA does not reflect income tax payments that reduce cash available to us;
- Adjusted EBITDA does not reflect restructuring expenses that reduce cash available to us;
- Adjusted EBITDA does not reflect share-based compensation expense and therefore does not include all of our compensation costs;
- Adjusted EBITDA does not reflect non-cash charges related to the cessation of our operational activities in China;
- Adjusted EBITDA does not reflect certain cash costs related to a partial lease termination of a portion of the Campus Headquarters, which reduces cash available to us;
- Adjusted EBITDA does not reflect non-cash loss from impairment of long-lived assets and therefore does not include all of our operating expenses;
- Adjusted EBITDA does not reflect litigation-related accruals, which may, depending on the outcome of the underlying litigation, reduce cash available to us;
- Adjusted EBITDA does not reflect accrued litigation settlement costs which reduce cash available to us;
- Adjusted EBITDA does not reflect non-cash impact of the remeasurement of warrant liability;
- Adjusted EBITDA does not reflect the non-cash impact of the remeasurement of derivative liability;
- Adjusted EBITDA does not include gain on debt restructuring, the income from which may in certain circumstances be taxable to us and reduce the cash available to us;
- Adjusted EBITDA does not reflect Other, net, including interest income and foreign currency transaction gains and losses, that may increase or decrease cash available to us; and
- other companies, including companies in our industry, may calculate Adjusted EBITDA differently, which reduces its usefulness as a comparative measure.

The following tables present the reconciliation of Adjusted loss from operations and Adjusted operating margin to their most comparable GAAP measures, loss from operations and operating margin, each as reported (unaudited):

Schedule

Correction of Previously Issued Interim Condensed Consolidated Financial Statements

During the fourth quarter and full year 2025 financial close procedures, the Company identified errors in its previously issued interim condensed consolidated financial statements for the first three quarters of 2025 relating to (i) inventory valuation, (ii) debt issuance costs, and (iii) the previously disclosed impairment of long-lived assets, as described in further detail below. The Company has determined that the errors identified below were immaterial to the previously issued interim period condensed consolidated financial statements for the first three quarters of 2025 and that the errors will be corrected prospectively when the Company files its quarterly reports in fiscal 2026, and accordingly the "as corrected" amounts are presented in the tables below.

Inventory Valuation

Due to errors in the Company's excess and obsolete inventory analysis, inventory was overstated and cost of goods sold were understated in each of the first three quarters of 2025.

Debt Issuance Costs

In connection with the Company's 2025 balance sheet debt restructuring activities, namely, entry into the Delayed Draw Term Loan with Ahimsa ("DDTL") and the debt exchange offer and restructuring which was completed in October 2025 ("Exchange Offer"), the Company incurred significant transaction expenses (collectively, the "debt issuance costs") related to professional services provided by various third-party advisors, consultants and professionals. In aggregate, for the first three quarters of 2025, these expenses amounted to approximately \$17.6 million, of which the Company allocated approximately \$14.1 million and \$3.5 million to the Exchange Offer and the DDTL, respectively. Following the closing of the Exchange Offer in October 2025, the Company, in consultation with its external technical accounting advisors, determined that the Exchange Offer qualified as a "troubled debt restructuring" ("TDR") in accordance with ASC 470-60, "Debt—Troubled Debt Restructurings by Debtors. TDR accounting guidelines specify that debt issuance costs must be expensed and included in selling, general and administrative expenses in the periods in which they are incurred, rather than being capitalized as prepaid expenses and other current assets. The Company further determined in the fourth quarter of 2025 that TDR related accounting standards should have been applied in each interim period of 2025 as creditor concessions were expected prior to the completion of the Exchange Offer, notwithstanding the fact that the Exchange Offer was not completed until the fourth quarter of 2025. Through each of the first three quarters of 2025, the Company initially and incorrectly recorded the Exchange Offer debt issuance costs as prepaid expenses and other current assets on its balance sheet instead of expensing them as incurred as part of selling, general, and administrative expenses. The Company also incorrectly recorded the DDTL related costs as

prepaid expenses and other current assets in the second and third quarters of 2025 instead of a debt discount. In addition, the Company understated remeasurement of warrant liabilities and delayed draw term loan warrants by \$0.5 million in the third quarter of 2025 due to an error in remeasurement of the fair value of warrants.

Impairment of Long-Lived Assets (“Impairment”)

The Company recorded a loss from impairment of long-lived assets of \$77.4 million for the three and nine months ended September 27, 2025 which was determined by comparing the fair value of the entity-wide asset group to the carrying value of the entity-wide asset group as of September 27, 2025.

Due to the errors identified above related to inventory, prepaid expenses and other current assets, the carrying value of the entity-wide asset group as of September 27, 2025 that was utilized in the impairment measurement calculation was overstated by \$26.1 million. Consequently, this resulted in an overstatement of the loss from impairment of long-lived assets of \$26.1 million, and understatement of property, plant, and equipment, net and prepaid lease costs, non-current of \$22.9 million and \$3.2 million, respectively. This reduction in the impairment loss was reflected in the offsetting increases in cost of goods sold and selling, general and administrative expenses due to the write-downs of inventory and prepaid expenses and other current assets, respectively, as discussed above.
